Sahil Dave

UI+UX DESIGNER

Bangalore, India

SUMMARY

I am an engineer turned UX + UI designer. I love the ideation phase in a design exercise, helps me understand the product from the roots. Having a good grasp on software development helps me serve as a liaison between developers and other designers in my team.

WORK EXPERIENCE

UI/UX Designer

Juspay Technologies   AUG '16 - MAY '18

Create UI, UX and prototypes for multiple payment solutions. Help improve the design handoff between different teams by creating design systems.

🏷 UI, UX

Co-Founder, Product & Engineering

Ostrich Books   APR '15 - AUG '16

Product design and engineering for all products. Part of the fundraising team and prepared the pitch presentations. Also lead marketing and community engagement.

🏷 UI, UX, Android, Python

UX Consultant

Juspay Technologies   SEP '15 - NOV '15

Designed UX for a deferral payment system. Laid groundwork for a real-time support system. Improved merchant onboarding experience by automating code generation.

🏷 UI, UX

Software Development Engineer

Juspay Technologies   JUL '14 - MAR '15

Built Juspay SAFE, enabling payments for billion people in India. Responsibilities were designing & engineering Android SDK for top merchants in India.

🏷 UI, UX, Android, Support
